DL-150、200、300、400型多功能自动双铝包装机

DL-150, 200, 300, 400 multi-function automatic double aluminum packaging machine

产品介绍：

　　DL-150、200、300、400型多功能自动双铝包装机是我公司采用先进的自动控制技术，进行创新设计的新机型，具有科技含量高，结构新颖，效率高，噪声低，操作维修方便等特点。适用于医药，电子，食品等行业的片剂，胶囊以及电子元器件，糖果等块状物体的包装，能起到良好的密封与避光作用。采用PLC控制，其充填，热封，切线，打批号，裁切，行程调整等工序均可任意设定，工作简便，包装速度更高，包装效果更好。

　　The machine is a new type one that we adopt fast-development automatic control technology and then create and design It has the characteristics such as high technological content, novel structure, high efficiency, low noise, conveniently maintaining and mending. etc.

　　It is suitable or the packing of troche, capsule and electronic component of vocations such as pharmacy, electron and food etc. And it is also suitable for packing of nubby objects such as candy.etc. It has a good photophobic and sealed function.

　　It adopts PLC control. Its procedures such as filling, hot sealing, tangent printing batch code, cutting adjusting procedure, etc.can be randomly set. So the work will convenient, the speed of packing will be high, the effect of the packing will be better.

技术参数 Main Technical Parameter

型号Model	DL-150	DL-200	DL-300	DL-400
辊筒转速（转/分） Speed of roller (roller/min)	7-15	7-15	7-15(无级)	7-15(无级)
生产能力（片/分） Capacity (pieces/hour)	20000-60000	26000-80000	30000-120000	35000-120000
最大包装宽度（mm） Max. Packing width (mm)	150	200	300mm	400mm (特殊要求另行设计)
药用聚乙烯（毫米） PVC for medicine (mm)	0.05-0.1x150	0.05-0.1x200	0.05-0.10 × 300	0.05-0.10 × 400
铝塑复合膜（毫米） Al-plsc combined film (mm)	0.08x200	0.08x200	0.08-0.10 × 300	0.08-0.10 × 400
卷轴孔径（毫米） Hole Diam. Of reel (mm)	Dia.40-45	Dia.40-45	70-75	70-75
电热功率 Electrical heating power (kw)	2	3	380V/2kw × 2	380V/2kw × 2
外形尺寸 Overall dimensions (mm)	1450x600x1700	1450x800x1700	1500 × 850 × 1670	1500 × 950 × 1670
重量Weight (kg)	600	800	900	900
